**2019 REQUEST FOR PROPOSALS**  
**Q & A**  
**August 14, 2019**

- 1. We noticed the RFP released last night for Glades area of Palm Beach. We would love to expand our HFF team in that area as there is real need there. Upon reading the RFP, however, we noticed that PAT is the only eligible model. Is there a possibility that other models will be considered?**

**A:** We currently have a PAT program in Belle Glade that is at full capacity and we are hoping to transition the current families to the new provider. For this reason, PAT is the only program model being considered.

- 2. We noticed you had an RFP for Palm Beach County. Is that for new MIECHV site?**

**A:** No, this is not a new site. We are needing a new provider in Palm Beach County to take over an existing PAT program. We are really hoping not to lose the families currently enrolled, because it is a very high-need area.
